THE AOTEAROA CAFE GUIDE

Who We Are

The UYOC.co.nz café guide only represents cafes, eateries, and juice bars who welcome customers to “Use Your Own Cup”.

People can use our guide to search for cafes who, amongst other things, have said “Not on my watch” to single use cup waste. It costs nothing to list with our guide. We are not for profit. Our sole aim is to normalise re-use within an inherently wasteful industry, and through this, instigate wider behaviour change about how we treat our belongings, each other, and our natural capital.

Our instagram at UYOC.nz is a passionately proactive platform, where we promote our member cafes, represent the initiatives they instigate, connect customers, foodies, and influencers with businesses who are working to create change.

We give away reusables. We give away vouchers to our member cafes, that we fund. We use every trick in the book to normalise re-use, and highlight the social and environmental unsustainability of all single use coffee cups.

We also provide free advice, consultation, and information about all aspects of cutting waste in hospitality. Our website has free downloadable signage and guides to reduce single use.

I am Laura, and I am available 24/7 to talk about any of these issues, and am also always willing to engage in dialogue with outside agencies (local authorities, local interest groups, the media, all and everyone) to support whatever moves towards sustainability that our member cafes choose to make.

Use us. There's not a moment to lose.
